HIGH PERFORMANCE EPOXY FOR REPAIR, PROTECTION AND REBUILD OF PUMPS AND PROCESS EQUIPMENT

Dc Dynamis , epoxy systems manufactures the latest epoxy for the particular needs of professionals. DC Dynamis Custom Epoxy Department focus on specific needs from the army, government and large organizations. The new release of the Z-TEC 751, 752 and 753 and STEEL-TEC 801 has fulfilled the need for a high performance product capable of the repair, protection and re-building of pumps and process equipment.

Venice, FL, May 31, 2015 – Dc Dynamis innovates with its Z-TEC and STEEL-TEC epoxy line. These epoxies are putty filled with ceramic (Z-TEC) or steel (STEEL-TEC) designed to repair, protect and re-build pump, process equipment, pump casings, fan blades, impeller blades, valves, and other water circulating equipment.

Z-TEC and STEEL-TEC® are uniquely formulated to be versatile, protective and highly performing to repair extremely worn or pitted areas in metal. Z-TEC 751 is used prior to coating with Z-TEC 752 and Z-TEC 753. Once dried, the epoxy can be ground, sanded, drilled or tapped as needed. The epoxy based formulation is an easy way to permanently repair and protect process equipment in an affordable and easy way. This Z-TEC and STEEL-TEC® line quality respond to the needs of industrial companies. It is a highly chemical resistant epoxy that has been proven to be durable in the tough environment. "This epoxy line is unique on the market and is highly used by professionals or by city workers on the repair of water circulating equipments and pipes. Our products are manufactured in Florida and we guarantee the quality of products. We offer the best quality of epoxy at very competitive prices" says John Caramanian, President of DcDynamis.

- more -

The epoxy, adhesive and coating line includes many products that are easy to apply, versatile, protective, chemical resistant, sagging free, and weather resistant. Dc Dynamis product line is continually expanding. DcDynamis also offer custom formulation if products are not currently available. Many colors and pot life are available to fit any needs.

For additional information on Dynamis new line of epoxies, contact Eric DeGrave / Nadia Vizza or visit www.dcdynamis.com.
